Red Badges a Hit.

Sunny Sanoff presented a very interesting biography. A UCSC graduate, she is in the interior design business and manages a kids basketball team.

Gavin Kogan, after living in many places and studies at several colleges, practices law in Santa Cruz and specializes in Bankruptcy. Both excellent reports. Our club especially enjoys Red Badge Presentations, and these two were very entertaining.

LAST WEEKS MEETING

This weeks meeting was anticipated due to the popular nature of "Red Badge" presentations. Also, **Marshall Shoquist** was slated to make a brief presentation on a research project at the University of Washington. This group is attempting to find a method of regrowing the small hairs in the auditory system that is key to hearing. It is a very exciting project and The Gates Foundation is helping with the funding, along with the Rotarians in Seattle.

Linda Burroughs had the raffle duty this week. She was selling tickets quite briskly. **Matt Shelton** was the fortunate winner, and his prize was a beautiful Anne Glass piece, along with a nice Pino Noir. Congratulations go to Matt and thanks, as usual, go to Linda.

Angelo DeBarnardo presented a thoughtful invocation and after the patriotic singing the members sat for a tasty Mexican style lunch.

Steve Spragen introduced the Delta

School Student of the Month. **Franky Preciado**. Frankie came to Delta from Wat-

sonville and is prospering in the school's environment. Frankie was presented a certificate from Rotary and a check for \$100.

We had visiting Rotarians from Santa Fe and Oahu. **Sam Bishop** lead the singing of our famous "Welcome" song.

Aleene Althouse served as a well prepared Detective. She introduced the Newlywed Game to our members. After calling the spouses, Aleene asked the members to predict the answers the spouses probably gave. Some of the guesses were

hilarious and unpredictable. For example, **Bob Rudolph** guessed worst Christmas gift to Joanne was a wheel barrow. Aleene's report was very funny and enjoyable.

Marshall Shoquist presented a video describing some research work on the regeneration of the tiny ear hairs that are a large part of hearing. The University of Washington has made some promising strides in this area. Repair of the hairs, rather than mechanical aids would be a marvelous achievement. Rotary is giving financial support to this project. If you would like to contribute, see Marshall.
